

BIOGLITTER[™] HOLO

Biodegradable Glitters for a Rainbow Effect

- Guaranteed Biodegradation in a Natural, Freshwater Environment
- TÜV 'OK Biodegradable WATER' Certification
- Holographic Effect

GENERAL INFORMATION

Cosmetic Bioglitter™ HOLO, the world's first TÜV, 'OK

Biodegradable WATER' certified holographic glitter range, considered the highest level of independent certification for fresh water biodegradability in the world. Developed to biodegrade quickly and safely in the natural environment.

Bioglitter[™] HOLO products produce a spectacular holographic effect, splitting light into it's component parts resulting in a brilliant rainbow effect. In non-diffuse, direct light, for example sunshine or led lights, these products really excel producing an eye catching kaleidoscope of dazzling colour!
