

BIOGLITTER™ PURE

First Glitter 100% Micro Plastic Free

- Aluminum Free
- Guaranteed Biodegradation in a Natural, Freshwater Environment
- TÜV 'OK Biodegradable WATER' Certification
- Iridescent Effect
- Sustainably & Ethically Sourced Raw Materials

GENERAL INFORMATION

Cosmetic Bioglitter™ PURE is the worlds first fresh water biodegradable certified glitter which proves that it's MICROPLASTIC FREE. Based on natural materials, Bioglitter™ PURE decomposes like a leaf in the natural environment to leave no trace. OK Biodegradable WATER Certification guarantees biodegradation in a natural, freshwater environment. Cosmetic Bioglitter™ PURE not only sets a new environmental standard for the glitter industry. With being soft to the touch, it's more comfortable on the skin and being aluminium free, it offers a completely new look, that we like to call a "Soft Focus Iridescent" effect.

Bioglitter Pure range corresponds to:

- 9 colors
- 5 sizes
- Globally Cosmetic Compliant
- FDA Compliant for use on lips (Aluminium free)
